TRAINING COURSE ON FIRST RESPONDERS ON OIL SPILL RESPONSE AND PREPAREDNESS: LEVEL - 1 (OPERATORS)

Kingdom of Bahrain, 17th – 21st January 2004

INTRODUCTION

In accordance with Decision 14 of the Twelfth Meeting of the ROPME Council (September 2003), a five-day Training Workshop on First Responders on Oil Spill Response and Preparedness Level -1 (Operators) was convened in the Kingdom of Bahrain during 17th – 21st January 2004.

OBJECTIVES

The main objectives of the Training Workshop were the training of Oil Spill Operators in preparing themselves and responding to oil spill combating, deployment of oil spill equipment, shoreline evaluation and cleanup operations as well as management of waste transportation and storage.

ATTENDANCE

The Workshop was attended by delegates from the ROPME Member States, namely the Kingdom of Bahrain, Islamic Republic of Iran, Sultanate of Oman, State of Qatar, Kingdom of Saudi Arabia and United Arab Emirates, as well as representatives of Bahrain Petroleum Company (BAPCO), Bahrain Coast Guard, Saline Water Conversion Corporation (SWCC), Saudi Arabia, and the United States Coast Guard in Bahrain. The Workshop was delivered by O'Brien group's specialists Mr. Robin Perry, Sr. Emergency Response Consultant, and Mr. Simon Valentine, Operations Manager, and MEMAC professional staff.

OPENING OF THE COURSE

The Workshop commenced at 09:15 a.m. Saturday the 17th of January 2004. On behalf of H. E. Dr. Abdul Rahman Al-Awadi, the Executive Secretary of ROPME, Captain A. M. Al-Janahi, MEMAC Director, welcomed the participants to this important Training Workshop, stating that it reflected the requirement of the Member States to have their national cadres, namely the oil spill operators, trained in preparing themselves and responding to emergency cases of marine pollution by oil spills and other harmful substances. He stated that the ROPME Sea Area (RSA) faces tremendous environmental threats caused by different human activities including transportation of oil by sub-standard vessels and discharging ballast water by oil tankers into the sea.

In concluding, Captain Al-Janahi wished all the participants a fruitful and beneficial training workshop.

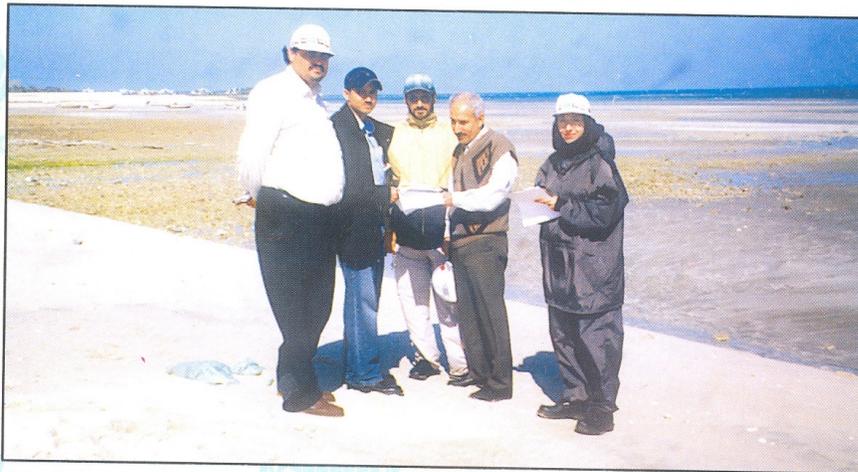

CONTENTS OF THE WORKSHOP

The Workshop content was covered theoretically and practically by the Experts and MEMAC Professional Staff. The practical exercises were carried out on a sandy and rocky beach in Manama, while the deployment of different relevant equipment, which belonged to MEMAC Training Centre and BAPCO, was carried out in Mina Sulman Port at MEMAC Regional Training Centre.

The participants of the Workshop went through the theoretical sessions for the first three days, focusing on different matters including: sources of oil in the marine environment; spill properties, behavior and fate; introduction to response strategies; environmental considerations; contingency planning overview; spill management; oil spill response safety; spill evaluation; containment and protection; recovery devices; dispersants; shoreline cleanup; shoreline supervisor or beach-master; waste management; and site safety plan.

The third and fourth days were dedicated to the practical exercises which were carried out, as said above, on a sandy and rocky beach in Manama and at Mina Sulman Port where two boats, provided by the Coast Guard were used and different oil spill combating equipment were deployed. These equipment, which were demonstrated and explained by the Experts and used by the participants themselves, included curtain booms, fence booms, absorbent booms, a skimmer and a polyurethane fast-tank. The participants raised different useful questions while using the equipment.

CLOSURE OF THE COURSE

Captain A. M. Al-Janahi, the Director of MEMAC thanked the Experts for their useful and interesting lectures. He also thanked the participants for their active participation in both the theoretical and practical sessions of the Workshop. He expressed his thanks and gratitude to the Bahrain Coast Guard and BAPCO for their cooperation with MEMAC in providing the Workshop with the needed equipment.

Then Captain Al-Janahi distributed the Workshop Certificates to the participants.

Before the closure of the Workshop, the Experts presented a Memento to Captain A. M. Al-Janahi as a token of appreciation and gratitude for organizing different environmentally important activities.

The Workshop was declared closed at 14:30 hours on Wednesday, the 21st January 2004.

LIST OF PARTICIPANTS

BAHRAIN

Mr. Jaffar Ali Abdulla ISHAQ
Extension and Marine Control
Maintenance Specialist
Directorate of Fisheries and Marine Resources
P.O. Box 20071

KINGDOM OF BAHRAIN

Tel: (973) 729595
Fax: (973) 728459

Mr. Adel Ahmed AL MAJED

Environmental Affairs
KINGDOM OF BAHRAIN
